12 January 2018

Dear Mr. Grayling,

### Blinding vehicle lights

I append a letter of 12 January addressed to Fran Simpson indicating that based upon 2016 accident data, DfT policies and lack of action to curb blinding lights have caused 72,000 additional casualties over the past three years.

Please may we ask:

1. Why is the DfT ignoring expert medical opinion that blinding vehicle lights are damaging to the eye?
2. When is the UK Government going to ban blinding lights?

We look forward to your response.

Yours sincerely,

Roy Milnes
